

VERTICAL TURBINE PUMPS

- LOWER COST
- UNMATCHED FEATURES
- 2 YEAR WARRANTY
- IDEAL FOR GOLF, LANDSCAPE, AND AGRICULTURAL APPLICATIONS
- WITHSTANDS THE RIGORS OF DEEP WELL AND SURFACE WATER APPLICATIONS
- OPTIMIZED FOR A WIDER RANGE OF SALINITY, PH, AND SUSPENDED SOLIDS
- FULL AND PARTIAL ASSEMBLIES

DISCHARGE HEAD | DUCTILE IRON

Ductile iron VT discharge head provides increased hydraulic efficiency, superior tensile strength and corrosion resistance over cast iron fabricated heads.

- 1 Large window design allows complete service access eliminating the need for costly cranes to remove motor.
- 2 Elbow discharge construction provides improved efficiency compared to fabricated T design.
- 3 Dual-port air release system for complete air purge.
- 4 Choice of upgraded mechanical seal or standard packing box.

Retrofit heads available for all station brands.
